

February 9, 2015

Purpose: Equipment Needed

Meeting called to order at 7:00 p.m.

Attendees: John Klosowski/Rick Tofte//Joe Toscano/Ken Clair/Tom Leather/Maurice DeSantis/Renee Tassani

The following equipment was discussed at this meeting:

Hurst Tool for 11-6-1 and 11-2-3

6 – 20 Foot Hoses (3 orange and 3 green)

Lights:

Brow Lights -Brow Lights have been looked at from Whelen who offers a 5 year warranty and also Rigid who offers a lifetime warranty. The lights offered by Whelen come in one length (Tom Giambattisto is looking into what that length is), whereas Rigid offers them in 20", 28", 30", 38", 40" and 50", they also offer a Hyper Spot Light which reaches out further. With this variety of lengths it's possible to do 1 light rather than 2 shorter lengths. Rigid's lights have the benefit of being plugged in.

Pillar Post Spot Lights for all Chiefs Cars.

Tom Giambattisto will be looking into all lights (including installation) further and getting back to the Commissioners and Chiefs.

Rick Tofte is looking into AED's. The AED's currently in the buildings will be reallocated to 6-1 and 2-5. The new AED's will go in the buildings and 2-3. This will be further discussed at Wednesday's meeting (2/12/15).

Additionally, Rick is looking into a Diamond Plate Hose Bed for 3-1 and also getting a piece of Diamond Plate to put over the bumper to clean it up.

Ken Clair is looking into a bag to hold the hose.

We need to order 3 Scott Bottles.

Air Packs are being looked into (potentially 7).

Rick is looking into EMS Gear prices and will have that information ready for Wednesday's meeting 2/12/15.

Meeting adjourned by John Klosowski at 8:12 p.m.
